

About us

BSP Agro Industry, is a dynamic international Agro-industrial Institution with significant interest and play a leading role in Thailand's on agriculture products business for more than 15 years. Starting with the cassava chip processor in 1993 when a team of traders with over a decade of experience in agricultural business joined forces to establish BSP Agro Industry Ltd., and rapidly expanded into a major purchasing, manufacturing and trading for cassava exports

With the latest technology, we currently enable to supply the total of 600,000 metric tons per year of the high quality tapioca chip and hard pellet with combined warehousing capacity of approximately 800,000 metric ton.

Our product are mainly exported to and fully accepted by all EU member countries, as well as the non-EU countries such China, Japan, South Korea, etc all of which have been our consistent and mutual beneficial partners

Save our Earth

The company was built with extreme passion and commitment to bring the best to the industries, we would like to build a better world through our quality products and high level services while meeting the needs of our clients and touching the lives of global citizens in simple and unique ways, We believe that with our grand strategy, inspiring principles and continuous commitments we can create a dynamic institution at the heart of innovation and excellence.
